HARSHITH VENKAT K

Software Developer

✉ harshith.in2002@gmail.com 📞 6305519611 📍 Bhimavaram, Andhra Pradesh

CAREER OBJECTIVE

Problem solver and strong communicator eager to prove my value and talent at an emerging company like Target. Motivated to advance and expand my skill set through dynamic team environment and challenging projects.

WORK EXPERIENCE

Software Development Engineering

Piramal Finance

📅 July 2023 - current 📍 Bangalore, India

- Spearheaded the development of ReviewQ, a comprehensive solution reducing loan rejection rates by 75% through intuitive UI and backend systems enabling efficient KYC checks for loan approvals.
- Collaborated on a high-value loan product, focusing on backend development and ensuring seamless integration with cross-functional teams.
- Contributed to implementing a "Backend Driven Frontend Framework," simplifying frontend code management with MongoDB for centralized configuration, improving scalability and maintainability.
- Demonstrated adeptness in debugging by swiftly resolving complex production issues, employing a systematic RCA approach and delivering optimized solutions to ensure uninterrupted service.

PROJECTS

Sorting Visualizer

📅 2022 - 2023

- It's a web application built with HTML, CSS, and JavaScript that allows users to visualize various sorting algorithms in action
- It allows the users to select the sort algorithm, select the array size, and speed of the visualization.
